The benevolent planet Jupiter (Guru) or Brihaspati has already changed signs on 8th May 2011. It has left its swagrahi rashi, Meen, and has now entered the fire sign Aries or Mesh. This fiery sign Aries is a friendly sign or Mitra-Rashi for Brihaspati and it allows Jupiter to show some of its very positive, beneficial and long term effects on all of us. Jupiter will leave Aries and will enter Taurus (Vrishabh) on 17th May 2012.

The last time Guru was in Mesh rashi was in the year 1999-2000. Jupiter had entered Aries on 26th May 1999 and had left it on 2nd June 2000. The next transit of Brihaspati in Mesh rashi will be from 22nd April 2023 to 1st May 2024. In 1999-2000 Jupiter was in a yuti with Saturn in Aries and during the present transit it will again enter a yoga with Shani when Saturn comes opposite to Brihaspati on 15th November 2011. But, this time it will be a samsaptak yoga and not a yuti.

Aries is a movable sign and is one of the four signs which represent leadership. It paves way for new and revolutionary changes and gives boost to the already ongoing changes which make life better for the mankind. But, being a fire sign the changes which it brings about are not always peaceful. But, the hegemony of rulers and monopolies in businesses are challenged and ended when Jupiter transits through Aries.

One fine example for this has been the end of 34 year rule of communist party in West Bengal in India as soon as Jupiter changed its sign. The movements for transparency in governance and punishment for the guilty, all over the world, will now intensify. At the same time stricter laws will be imposed on people by the governments and attempts will be made to stifle the voices advocating freedom of information.

Next one year will also see the economies of the nations like USA, UK and Europe recovering to much extent. But, the real and noticeable recovery begins only when Saturn comes in opposition to Guru in November 2011. After that, for next six months, the Guru-Shani opposition will bring about some radical changes in economic policies and the governance in many nations.

But, for India, next one year will be full of legal troubles for the government and the ruling party. A lot of mud-slinging and back-stabbing will be witnessed among the politicians of all political parties. Unwise investments and wrong decisions will cause huge losses to the government and the public sector banks. More financial scams will come to light. At the same time, the terrorist activities will increase and there are strong chances of small war like situations on the northern and western borders.

In Business sector, IT and Education related industries will get the maximum benefit of this transit of Brihaspati in Mesh rashi. Bullion will keep on its upward march. One other industry, which is not actually counted as an industry, which will get benefit from this transit is of the
