Saturn enters Aquarius (Kumbh) on 17th January 2023. It will stay in this airy sign till 29th March 2025. Last year too, Shani had entered Kumbh rashi on 29th April 2022 but it had gone back to Capricorn in a retrograde motion on 12th July 2022. Now, finally, it is re-entering Aquarius for a continuous transit in this fixed sign.

Shani has two Swagrahi Rashis, its own signs, Makar and Kumbh. In Makar or Capricorn, which is a movable sign, Shani is fickle, unstable, brings great changes but does not allow people to accumulate wealth and to become prosperous. In Kumbh or Aquarius, which is a fixed sign, it has more stable and wealth generating effects though its negative effects too can be quite long lasting and very damaging too.

Shani's previous transit in Kumbh was from 5th March 1993 to 16th February 1996. During that 1993-96 transit of Shani in Kumbh, Saturn had moved twice to other signs for short periods. On 15th October 1993 Saturn moved back into Capricorn in a retrograde motion and then re-entered Aquarius in a direct motion on 10th November 1993. Then, on 2nd June 1995, Shani moved forward to Pisces but came back into Aquarius in a retrograde motion on 10th August 1995. It had finally left Aquarius on 16th February 1996.

Shani takes around 30 years to complete one full cycle of the twelve zodiac signs. So, after a period of around 30 years it comes back in the same sign. Saturn impacts the general life, politics and economics different ways in each sign, for more than two years' period in one sign. It has been in transit in Capricorn since 24th January 2020. This transit has brought about the greatest adversity which mankind has ever faced, the coronavirus pandemic. Now, we have to observe how this transit of Saturn in Aquarius will be.

Some of the previous transits of Saturn in Aquarius before the 1993-96 transit were-

- 27th January 1964 to 9th April 1966, 3rd November 1966 to 20th December 1966.
- 7th December 1934 to 26th February 1937
- 5th February 1905 to 20th April 1907, 7th October 1907 to 11th January 1908

After this 2023-25 transit in Kumbh rashi Shani will be back in Aquarius on 25th February 2052.

In the past, Shani in Kumbh rashi has brought about great natural calamities like blizzards, floods and earthquakes killing and effecting thousands of people. It has caused sudden changes in governments, coups, revolutions, assassinations and changes in long term policies of nations. Nations have divided and got independence too. The weak rulers have become more powerful while the powerful ones have become weaker.

It has brought economic growth, technological advancements and new scientific discoveries too. Each transit of Shani in Kumbh can have quite contrasting effect as compared to the previous one. Nelson Mandela was sentenced to life imprisonment during the 1964-66 transit and he became the president of South Africa during the 1993-96 transit.

This 2023-35 transit of Saturn in Aquarius can be quite difficult for people in general. Initially, the economic problems will increase in most nations but by the end of 2024 the economic
