

Stephanie Asks: Namaste! Can you please tell what job is better suited for me as I have a degree in politics and law. Thank you!

Date of Birth: 24/08/1981, time of birth 4:30am, place of birth: Kwamekrom, Ghana, Place of residence: UK

Astrologer Ashutosh: Ms Stephanie! You were born under the Jyotish ascendant of Cancer and the Moon Sign Taurus. The beneficial and mutually balancing placement of planets in your horoscope promises great professional success, wealth and fame to you.

You are a very intelligent person and you have a great ability to express yourself verbally. Your speech will be the main tool for success for you in your job and profession. Moreover, your horoscope shows that you can handle different and diverse kind of tasks with equal ease. You will not be able to limit yourself to only one kind of a work. Already you must have changed two or three different type of professions.

I can see three professional fields in which you will be successful. You will have to manage all three of them at the same time. The first is your job or practice as an attorney of law or a legal consultant. The second is of an active member of a political party. The third is of a teacher, instructor or a lecturer. Out of these three the career which will give you the most success and fame is the career in politics. You can hope for all good jumps in politics and you can even run for an elected and influential post after 10 years from now.

The only drawback which you have is your laziness and lack of proper discipline in life. No one but only you can harm your career prospects by having a lack of focus on your work. Therefore, some remedies are required to be done to maximize the utilization of your potentials in your career.

1. Colour: Avoid Grey colour in garments and other personal things in totality. Use more of Pink, White, Yellow and Brown. White is the best and the most beneficial colour for you.

2. Exercise: You must perform physically strenuous exercises regularly. This will make the energies of Mars, which governs the career prospects for you, more focused. Exercise will also make your thought process better and sharper along with giving you more control over your anger and other emotions.

3. Gemstones: Wear a White Sapphire in silver ring on the little finger of your either hand, on Monday morning. Also, wear a Yellow Sapphire, in gold ring, on index finger of either hand, on Thursday morning. Both these gems must be at least 5.5 carats in weight.

Life promises you many beautiful surprises. The only requirement is to be more hard working and disciplined.
